

TOYOTA MATERIAL HANDLING NORTHEAST

Want to join an industry leader?

Job Overview

If you are a skilled and friendly Service Technician who is seeking career satisfaction with a financially stable and growing brand, join Team Toyota! Toyota is the North American forklift market share leader and with more Toyota forklifts in operation than any other forklift brand, hundreds of technician opportunities are currently available across the United States and Canada! Toyota Forklift's dealer network is comprised of over 200 dealership locations. As a Forklift Service Technician with Toyota, you will work for a Toyota Forklift dealer and help diagnose issues and service our forklift customers. At the individual dealer's discretion, you will have access to ongoing factory training and the possible opportunity to progress to the annual Platinum Skills Challenge, which designates Toyota's Top Tech.

In addition to hand-on troubleshooting and repair work, you will give repair quotes, consult customers on the benefits of OEM parts and planned maintenance plans and work with your dealership's parts department to supply the parts needed and perform repairs and maintenance.

Opportunities are available for Road Technicians and Shop Technicians. Placement is managed by the dealer and typically depends on experience, skill and preference.

As a part of our team, you are eligible for:

- Paid Training
- 401K retirement plan
- Group Medical, vision, dental and prescription plans
- Company provided life and disability insurance
- Paid vacation and personal time
- Excellent wages

Job Requirements

- High school diploma or GED
- Current, valid and unrestricted driver's license
- Must be able to pass a background check and drug screen
- Related experience in field service /mechanic/ heavy equipment maintenance and repair
- Must be able to analyze, diagnose and troubleshoot repairs on electric, propane, IC and diesel
- Able to promptly and thoroughly complete all paperwork
- Self-motivated and able to work with minimal supervision
